Description:

The world in 2325 is a very different space - this Archive is all that remains of humanity...

Dive into audiovisual cyberspace and explore a large network of knowledge unfolding around you. GNOSIS is a Virtual Reality artifact and music album combining retroarcade-styled puzzle gameplay, interactive data visualisation and artistic performance, all set to a kaleidoscopic soundtrack by VVDS, Cooptrol, Black Bolt, Psykocosmos and Q P.O.P. Dance performance by Ana Leitaof BACANTOH.

Quotes:

"The cyberpunk VR I've been waiting for is finally there! (...) It's generative, it's complex, it's weird, it's neon - it's all of it!" - Daniel Sproll (CXO, Cofounder, Realities.io)

"The way GNOSIS visualises information is unlike anything we've seen."
- The Virtual Report (www.thevirtualreport.biz)

"(...) you should definitely have an eye on Gnosis (..)" - Thorsten S Wiedermann
(Director, A MAZE. festival)

"It's like a sci-fi, VR version of a Wikipedia binge!" - Louis d'Aboville
(Creative Technologist)

Soundtrack:

The OST will be released on Tiredbeat Records
